

Pressure relief valves made of gunmetal, with double lever and weights, angle-type with threaded connections

→ Series 612

■ SUITABLE FOR

Liquids	neutral	
Air, gases and vapours	neutral	
Steam		

■ EXAMPLES OF USE

For the protection of:

- pressure tanks/-systems for neutral vapours, gases and liquids
 - steam boilers and steam plants
- if proportional opening characteristics and only small blow-off volumes are required (i.e. protection in the case of expansion due to heating-up). Please observe plant-specific regulations and use of appropriate valve version and sealing material.
- low pressure steam systems
 - low pressure industrial- and commercial boiler plants
